Key Highlights

2020

- June 1, 2020 – UPS marked World Environment Day by matching the carbon offsets of all packages shipped via its carbon neutral program during the month of June. UPS's carbon neutral program began in 2010 and has offset more than 60 million packages annually for customers, equal to more than 100,000 metric tonnes of carbon offset each year.

2019

- Mar 19, 2019 – UPS introduced UPS's eFulfillment program to help small- and medium-sized companies in the Philippines take their business global. The Program includes technology platform and physical fulfillment services, encompassing storage, order processing, packaging and shipping. It supports purchases and orders from 21 different marketplaces and web stores, including eBay, Wal-Mart, Etsy and Amazon Prime. This new platform gives online retailers in the Philippines easy access to over 200 million customers in the U.S. and Canada by enabling convenient management of sales across multiple marketplaces and configurable delivery times through a single platform.
